**A Hairy Scary Spider  
by Dr. Claus**

**A hairy scary spider  
Had a shiny head of hair  
While making his web tighter  
He saw a small girl to scare**

**The hairy scary spider  
Lowered himself down the tree  
He hoped that he would scare her  
More than any bumblebee**

**The hairy scary spider  
Waited to tickle her head  
Quietly he came closer  
Only hanging by a thread**

**Then a strong wind blew by her  
Moving the hair on her head  
The hairy scary spider  
Floated far away instead**

## **Mymerma The Bird**

**by Dr. Claus**

**Mymerma is a bird that sings  
Tweet-Tweet a little Tweet Too Too  
And she has feathers on her wings  
Tweet-Tweet a little Tweet Too Too**

**High up in a shade tree she'll sit  
Tweet-Tweet a little Tweet Too Too  
She's happy her new sneakers fit  
Tweet-Tweet a little Tweet Too Too**

**She loves to sing both night and day  
Tweet-Tweet a little Tweet Too Too  
There's nothing more she'd rather say  
Tweet-Tweet a little Tweet Too Too**

**So if you hear her sing one day  
Tweet-Tweet a little Tweet Too Too  
I hope you'll join along and say  
Tweet-Tweet a little Tweet Too Too**

## **Ding-A-Ling The Bear**

**by Dr. Claus**

**Ding-a-ling bear sat on a log  
He missed his happy friend the frog  
But then he heard a song he knew  
The words in it were very few**

**Ribbit - Ribbit - Ribbit - Ribbit  
A song this bear just loved to sing  
Ribbit - Ribbit - Ribbit - Ribbit  
It had a very pleasant ring**

**He heard his best friend sing a song  
And knew that soon he'd be along  
The sound he heard the froggy make  
Was echoing across the lake**

**Ribbit - Ribbit - Ribbit - Ribbit  
He heard this song around the bend  
Ribbit - Ribbit - Ribbit - Ribbit  
Ding-a-ling bear could see his friend**

## **A Choo-Choo Train**

**by Dr. Claus**

**The mighty rumble of the trains  
The locomotive on the plains  
What child hasn't watched amazed  
The trails these great machines had blazed**

**So powerful and made of steel  
Noisy vibrations you could feel  
On railroad tracks the trains would ride  
And they would sway from side to side**

**When these big trains would come around  
Their horns would make a roaring sound  
There my eyes were filled with wonder  
As the wheels sounded like thunder**

**Recall the memory you had  
When you were just a little lad  
A Choo-Choo train traveling fast  
A magic that was bound to last**

## **Buggle Wuggles**

**by Dr. Claus**

**Buggle Wuggles the lightning bug  
A lovely bug who needs a hug  
Her little light lights up the night  
On her tail is a glowing light**

**Look at her flying in the air  
She will go flying anywhere  
Her nighttime light is such a sight  
Blinking and glowing oh so bright**

**There's no place she would rather be  
Then playing games with you and me  
She likes to sing the A B Cs  
One at a time under the trees**

**She's always ready for a hug  
The happy lucky lightning bug**

## **A Funny Duck Named Quack Quack**

**by Dr. Claus**

**There's a funny duck named Quack Quack  
Who carries around a backpack  
Inside is everything he needs**

**He likes to take hikes in the woods  
Discovers all of nature's goods  
On his head is a band of beads**

**He always wears a green raincoat  
And in his pocket is a note  
He keeps a pen behind his ear**

**He's friends with all the animals  
He loves to watch the waterfalls  
He is always full of good cheer**

**An Itsy Bitsy Baby Ant  
by Dr. Claus**

**An Itsy Bitsy Baby Ant  
Was trying to climb up a plant  
He went halfway and scratched his nose  
And one by one he stretched his toes**

**He wanted to get to the top  
At least that's what he told his pop  
What would he do when he got there  
He did not know and did not care**

**Finally the ant reached the top  
He was tired and had to stop  
The view was very nice to see  
As the ant smiled happily**

**The ant started to walk around  
The ant was high above the ground  
As he took a leisurely stroll  
The baby ant fell through a hole**

**The Toys You Give Them  
by Dr. Claus**

**All of our little girls and boys  
Have so much fun playing with toys  
And they will play with anything  
A block a kite or golden ring**

**Just watch their little smiles appear  
When you give them something so dear  
Their little hands reach out to you  
Their hearts will glow with a thank-you**

**The toys you give them big or small  
From a rocking horse to a ball  
Will give a child hours of joy  
To think it came from just a toy**

**Giving to little boys and girls  
Is more precious than any pearls  
The gift you give is from the heart  
It may be small but it's a start**

**A Kangaroo  
by Dr. Claus**

**A kangaroo jumped on my bed  
And almost landed on my head  
Where he came from I do not know  
He might have jumped through the window**

**The kangaroo had big wide feet  
He used his large tail as a seat  
He looked like he wanted to play  
But all he did was bounce away**

**He jumped on my bed and my chair  
He jumped on top of my stuffed bear  
He jumped off the floor and wall  
He bounced around just like a ball**

**The kangaroo jumped up and down  
He was as silly as a clown  
I told the kangaroo to go  
So he jumped out of my window**

by Dr. Claus**

**On a splendid magic carpet  
Faster than a speeding jet  
I traveled to a rain forest  
And that is where I met**

**A lovely enchanted princess  
Wearing a beautiful dress  
Without a word a spell was set  
When I felt her caress**

**Holding my hand she said to me  
This is a special place to be  
Please tell the world what you have found  
The magic that you see**

**I saw abundance all around  
Full of life and full of sound  
The rain forest must remain free  
Its beauty will astound**

**Bath Time**  
**by Dr. Claus**

**Bath time is so much fun for me  
When I and captain of the sea  
My ships keep bobbing all around  
For unknown places they are bound**

**Sometimes a storm will sink a boat  
My hands are quick to make it float  
In the bathtub I am happy  
To be the captain of the sea**

**I can be captain of the ship  
Set out on a dangerous trip  
There are many perils to face  
Like lost at sea without a trace**

**The warm waters in my bathtub  
A ship or boat or a toy sub  
Is all I need to help me be  
A brave captain out on the sea**

**Candy Dreams  
by Dr. Claus**

**Rainbow wishes and candy kisses  
Chewy gumdrops and bright red fishes  
Painted gumballs and soft bubblegum  
Candy dreams everybody has some**

**Blowing bubbles is not much trouble  
I liked licking raspberry rubble  
Coated candies and strawberry chew  
I liked eating them what about you**

**Candy apples and cotton candy  
Sweet licorice is very dandy  
When you give let it be a sweet  
any time for me is a real treat**

**Reflections**  
**by Dr. Claus**

**When my vision was crystal clear  
The many colors seemed so near  
And every image felt so sharp  
Like music flowing from a harp**

**Nature seemed closer in those days  
When I could see the sun's bright rays  
No hazy shadows came to me  
Those younger years when I could see**

**Then slowly and without a trace  
My eyes were squinting on my face  
What was that object by the tree  
Reflections of a younger me**

**And now that I have become old  
And all the stories have been told  
Believe in love and you will find  
Love is the greatest it is kind**

**Sixty Seconds**  
**by Dr. Claus**

**Sixty seconds in a minute**  
**Start a race to try to win it**  
**Sixty minutes make an hour**  
**Don't look now you're out of power**

**Twenty-four hours in a day**  
**You think you have a better way**  
**Just count the minute's one by one**  
**And soon a single day is done**

**But every second seems so long**  
**You wonder if there's something wrong**  
**But then you think you really know**  
**An end to this continued flow**

**Make every second disappear**  
**Now everything becomes so clear**  
**That with no seconds in the gears**  
**You have no minutes days or years**

**The Greatest Star  
by Dr. Claus**

**I see the bright star out tonight  
I use it as a guiding light  
Of all the stars upon the dome  
This is the light that leads me home**

**The greatest star so it would seem  
There's no other to match her gleam  
A beacon for me in the night  
You always are a welcomed sight**

**I know when the daylight is spent  
A strong message from you is sent  
A signal to me anywhere  
A nighttime friend I'm glad you're there**

**And when I reach my journey's end  
I look to you my shining friend  
With grateful thoughts I think of you  
Your light is always coming through**

**The Seashore Water Way  
by Dr. Claus**

**You smell the salty ocean air  
And soon you're left without a care  
The sandy beach is all round  
The sea gulls make their calling sound**

**The pounding surf is not too far  
Just cross the sand and there you are  
You watch the waves come crashing in  
Suntan lotion is on your skin**

**The sky is blue the sand is white  
Someone is flying a red kite  
Airplanes with tales go flying by  
There is not one cloud in the sky**

**The water's cold so you go slow  
And you can feel the undertow  
This is how you will spend the day  
Down by the seashore water way**

**A Small Garden  
by Dr. Claus**

**A small garden is all I need  
To plant my flowers and my seeds  
A little patience and sunshine  
Along with water makes things fine**

**On hands and knees I plant my seeds  
A spade I use to dig out weeds  
Time is the only thing that tells  
If everything will turn out well**

**And as each day goes passing by  
I wonder what new things I'll try  
The garden is full and it looks good  
The garden sits where grass once stood**

**So start a garden if you will  
And discover a pleasant thrill  
By eating all the things you sow  
Just plant the seeds and let them grow**

**A Sunset  
by Dr. Claus**

**Just watch a sunset all a glow  
There are no two the same you know  
So beautiful for you to see  
And there is no admission fee**

**The colors flow without a care  
And you are sure to get your share  
Of pastel orange red and gold  
And other colors soft and bold**

**The sun sets as a big round ball  
Out of the sky you see it fall  
The giving light soon disappears  
and in return the night appears**

**So count each second that goes by  
And watch the sun fall from the sky  
Taking with it the sunshine too  
Taking with it a piece of you**

**Paradise**  
**by Dr. Claus**

**In my backyard there is a stream  
I go there often to daydream  
The water trickles very slow  
The only hideaway I know**

**The sun will shine down on my face  
While I rest in this peaceful place  
I like to watch the birds fly by  
Or gaze into the wide blue sky**

**A fish might jump up for a bug  
My fishing line might get a tug  
The trees provide a gentle shade  
And soon the mid-day heat will fade**

**I like to listen to the sound  
Or look for new things to be found  
There is no place I'd rather be  
Then in this paradise for me**

**Strawberry Peaches**  
**by Dr. Claus**

**Strawberry peaches on my plate**  
**They look so good and taste so great**  
**It's true I can't believe I ate**  
**Strawberry peaches on my plate**

**Raspberry pears for me to eat**  
**They smell so good and taste so sweet**  
**I would consider them a treat**  
**Raspberry pears for me to eat**

**Blueberry apples are yummy**  
**And I can pick one off a tree**  
**I think everyone will agree**  
**Blueberry apples are yummy**

**Banana squares top off my list**  
**they have a funny kind of twist**  
**And fit nicely around your wrist**  
**Banana squares top of my list**

**A Shiny Beetle Bug  
by Dr. Claus**

**There was a shiny beetle bug  
Crawling across my bedroom rug  
The bug with green as green could be  
And it was looking straight at me**

**I tried to run I tried to hide  
It came so close I almost cried  
Then it crawled underneath my chair  
It seemed to vanish in thin air**

**I peek under my chair to see  
Where could the bug possibly be  
It wasn't anywhere in sight  
I was glad because it might bite**

**I slipped my sneakers on my feet  
And tied my laces really neat  
Then on my toe I felt a tap  
The bug was there taking a nap**

**Let's Take A Moon Ride  
by Dr. Claus**

**While gazing into outer space  
To my surprise I see a face  
A little pale it looks to me  
Is that a face I really see**

**I see the moon to my surprise  
Upon reflection I realize  
Two hundred thousand miles away  
We can get there in half a day**

**Why not I say let's take a zip  
I'm sure it will be a fast trip  
We'll eat moon biscuits with our lunch  
And watch the earth turn as we munch**

**How nice to watch the earth spin by  
Such fun to see the space vans fly  
And if there's room here we might stay  
In zero gravity to play**
